

DEAD AT BARCELONA ESTIMATED BY REFUGEES TO BE THOUSANDS

Editor of the Progreso Shot Without Trial in a Fortress—Excitement Throughout Spain Among Working Classes.

Barcelone, France, Aug. 2.—Reliable news regarding the situation in Spain, received here this morning from San Sebastian, reports conditions as grave throughout the northern part of the country, where all the trades unions have given notice of the beginning of a general strike today.

The government has seized all the telegraph and telephone wires in the affected provinces to prevent communication among the leaders of the strike movement. The transmission of newspaper despatches has been stopped entirely, forcing a suspension of a majority of the journals. The greatest excitement reigns among the working classes.

Reports received here direct from Madrid say King Alfonso is greatly depressed over the interior situation. He desired to throw his personal popularity in the scales and it was with difficulty that he could be dissuaded from going to Barcelona in person. Premier Maura told him it would be equivalent to suicide to enter that hot-bed of anarchy.

Paris, Aug. 2.—The situation at Barcelona still remains shrouded, as no correspondent has yet reached the city, which is isolated by land and sea. Nevertheless it appears certain that General Santiago has restored a semblance of order in the city and today a serious effort to resume work will be made. At the solicitation of the authorities, the employers of Barcelona have agreed to offer a premium of a week's wages to every person coming back to work.

At what cost of life and property comparative tranquility has been restored in Barcelona, however, still remains unknown. Refugees arrived at the frontier speak of the terrible slaughter and estimate the dead at thousands. Whether or not the ring-leaders, who were captured and condemned by court martial, have actually been executed is not yet clear. It is known that Emiliano Iglesias, editor of the Progreso, was shot without trial in the fortress.

But if order has been restored at Barcelona, it seems equally certain the cutting country, especially the district north of the city, still is in the hands of the revolutionists and even the official despatches from Madrid speak of the necessity of restoring order in the interior of the province and the difficulty of dislodging the "anarchists" who have taken refuge in the mountains.

Some reports insist that a republic already has been proclaimed and that a regular junta is directing the operations of the revolutionists.

Eight Aldermen of Barcelona slain.
Barcelona, Aug. 2.—Order is today completely re-established in Barcelona proper, but the trouble continues in the outskirts of the city. Railroad communication with Barcelona has not been re-established. The losses suffered by commerce during the rioting of the last week have been enormous and the destruction of property has been great.

Among the victims of the military court martial are two members of the chamber of deputies and eight aldermen of Barcelona.

Prisoners in Dungeon.
Madrid, Aug. 2.—The military authorities today denied categorically that the revolutionists contributed to the death of Barcelona already have been executed. They say the sentences are awaiting the approval of the minister of war and that, in the meantime, the prisoners are being held in the dungeons at Forts Montjuich and Citadellas. Those of the prisoners, who were wounded are in hospitals.

The government announces that the work of restoring railroad communication in Catalonia is proceeding actively and that the lines between Barcelona, Cerbera, Saragossa and Valencia probably will be re-established Wednesday.

Confirmation of Bloody Revenge.
London, Aug. 2.—A special dispatch received here from Cerbera, on the Spanish frontier, says the reports that 119 insurgents of Barcelona were sentenced by court martial to death and executed by shooting yesterday at the Fort of Mont Juich, has been officially confirmed.

HUDSON-FULTON CONTRIBUTIONS

New York, August 2.—More than \$155,000 is probably contributed already to defray the expenses of the Hudson-Fulton celebration to be held in this city in October. Assurances have been given that many more thousands of dollars will be added to the fund.

The New York Hotel Managers' association heads the list with a contribution of \$100,000. J. P. Morgan & Co. come next with \$100,000. James A. Hearn and Son, John D. Rockefeller and William Rockefeller have each given \$50,000.

The celebration will include a review of seven miles of warships aligned along the Hudson river from

the Battery to Grant's tomb, as a mark of honor to the Half Moon, in the original of which Henry Hudson explored the Hudson river 300 years ago, and the Clermont, by which Robert Fulton inaugurated steam navigation a century ago.

More than 100 merchant vessels, all decorated, will take part in the festivities.

MYSTERIOUS BAG FOUND

Contains Jewelry and Money but Remains Unclaimed

New York, August 2.—Mystery surrounds the finding of a wealth-laden handbag on the excursion steamer City of Worcester. The bag, which bore the initials, "G. L. W." was found on the boat after all the passengers had left on the night of July 9, and was turned in at the office unopened. There it attracted no attention until a day or two ago when Vice President J. A. Ganger opened the bag and besides finding several pieces of women's laundry, Mr. Ganger said he discovered two diamond rings, seven loose diamonds, two gold watches, other jewelry and a "very, very large sum of money." He would not name the sum, but said that it was sufficiently large that the loss of it would cause even a rich person anxiety. Outside of the initials on the bag, it contained nothing by which the owner could be identified, and Mr. Ganger is of the opinion that the owner was a victim of a tragedy, perhaps, suicide and possibly murder.

SPANIARDS IN A TRAP

Were Caught in a Gorge and Slaughtered by the Moors

Oran, Algeria, Aug. 2.—Officers of the steamer Emir, which came here today from Melilla, referring to the fighting between the Spaniards and the Moors, on July 27, say the former made the mistake of advancing in solid masses through a gorge sided by hills whence the enemy shelled them with success. The unfortunate soldiers of Spain did not know where the fusillades came from. Many of the Spaniards had only just disembarked and were without weapons.

San Sebastian, Aug. 2.—(Via Frontier).—Further particulars regarding the situation at Melilla says the arrangements for caring for the wounded are deplorable. There are but few doctors and medicines, and surgical instruments, etc., are almost entirely lacking.

During the fighting of July 28, the staff of General Marina, the commander of the Spanish forces, was decimated and some companies lost half their strength, and three-quarters of their officers.

All the reports speak of the bravery of the men and officers but dwell on the stupidity of the antiquated tactics employed and the disorganization of the commissariat.

CLOSING QUOTATIONS OF WORLD'S MARKETS

STOCK MARKET ACTIVE WITH PRICES HIGHER

New York, Aug. 2.—The stock market opened today active and prices generally higher than last week, but there was a fair mixture of declines, including some of the stocks of first prominence. Reading, Illinois Central and American Car rose a point, and St. Paul United States Rubber and American Locomotive, large fractions. Louisville and Nashville declined 3-4.

The market had to meet a great deal of realizing in the early dealings. Most of the railroads and U. S. Steel showed varying degrees of irregularity, during which prices dropped below Saturday's closing. Frequent ral-

longer than a few hours because of a rising of the country and air, which forestalled the commitment of tramps. Hahner struck upon a new scheme. He ordered an extra supply of handcuffs, and some of the tramps caught in the next raid were chained to trees in the village.

The experiment was a success. With no shelter and tormented by swarms of mosquitos from the nearby swamps, the captives were glad to quit the town when brought before the constable and given their liberty.

FUNERAL HELD AT THE HOUR SET FOR WEDDING

New York, Aug. 2.—Almost at the hour set for her wedding in All Souls' church, Brooklyn, the funeral of Miss Elizabeth Lowerer, a popular young woman, took place at the home of her sister, Miss Lowerer, who was to have been the bride of Edwin C. Sherwood, of Bridgeport, Conn., was taken suddenly ill at Winthrop, Mass., last Thursday. Sherwood was the chief mourner at the funeral.

ZEPPELIN IN THE AIR

He Sails From Frankfort for Cologne a Distance of 110 Miles

Frankfort, Germany, Aug. 2.—The airship Zeppelin II ascended from Frankfort this morning and, after performing various evolutions over the city, started for Cologne, about 110 miles distant. The vessel will follow the course of the Rhine. Preparations for an enthusiastic welcome at Cologne have been made.

RECORD OF WILBUR WRIGHT IS BEATEN

Paris, Aug. 2.—At Port Aviation near Juvisy, yesterday, M. Pellet Gaudart in a vison bi-plane rose to a height of 800 feet, beating the record established by Wilbur Wright and winning the Lazare Weiller prize.

The aviator described several circles over the aerodrome, gradually increasing in height until he passed with considerable margin above the canvas balloon, maintained at a height of 100 meters.

The aeroplane remained aloft for nine and a half minutes, the descent being made with ease.

COTTON PRICES ARE CLIMBING

New York, Aug. 2.—An excited advance in the price of cotton in the New York market followed the publication of the government crop report today. January deliveries sold up from 1235 to 1270 inside of ten minutes or about \$2 a bale above the closing price of Saturday, and within 13 points of the high record for the season, made early last month. The government report of 71.9 per cent represented a deterioration of 2.7 per cent for the month and was a low record for this season.

WRIGHT WILL INSTRUCT THEM

Washington, Aug. 2.—Wilbur Wright will return to Washington early next week to instruct Lieutenants Lahm and Foulers of the signal corps in the manipulation of the Wright aeroplane, purchased by the signal corps. The instruction flights are to take place at College Park, Md., according to the present plans.

The contract with A. N. Herring for an aeroplane has been annulled because Herring did not deliver his machine by August 1.

GARY, INDIANA, IS UNDER STATE RULE

Chicago, August 2.—As the result of a clash between state and city officials over the suppression of lawlessness at Gary, Ind., that city practically will be under state rule today, deputy sheriffs under command of Sheriff Hunter of Lake county, taking charge of the situation over the head of Mayor Knotts and his police department.

Following the announcement of Governor Marshall that he would send the state militia to Gary if these city officials did not take immediate steps to stamp out the lawlessness, Assistant Prosecuting Attorney Hodges declared he would have several hundred deputy sheriffs sworn in to close up the "blind pigs" and other illegal places which he declares have been flourishing there.

CIGARETTE IS AN OUTLAW IN STATE OF MINNESOTA

Minneapolis, Minn., Aug. 2.—The cigarette is an outlaw in Minnesota. The new state law prohibiting the sale went into effect yesterday and it is now illegal to put them on the market.

The cigarette market assumed a peculiar phase in the closing hours. The price varied and was as unsettled as the stock market after a flurry in Wall street. In the evening, there

"JOKER" IN THE NEW TARIFF BILL HAS CAUSED A GREAT UPROAR

Conference Committee Reassembles in Order to Make an Explanation to the Western Senators

Washington, Aug. 2.—With the tariff conference report facing defeat in the senate, on account of an alleged "joker" in the hide and leather compromise, it was decided at 1 p. m. today to reassemble the conference committee for the purpose of preparing an official explanation. The conference committee will meet at 3 p. m.

It is understood that the reassembling of the conferees was a result of the conference between the President and Senator Aldrich, although it was said at the White House that the President had no part in their reconvening. The action of western Republican senators, aided by the Democratic members, in compelling the reading of the conference report in full, enabled the supporters of the conference report to take a new poll of the senate. Much to their surprise they found their previous canvasses were valueless. There seemed to be a revolt among the westerners on account of the phraseology that had been adopted by the conferees in adjusting the differences in the hide and leather paragraph.

Since Saturday there had been murmuring of discontent but it was not until today that charges that the leather committee promises harbored a "joker" had been heard but such intimations are not unusual in connection with the settlement of controversies. Some of the dissatisfied senators said the duty on boots and shoes had not been reduced to 10 per cent as asserted by the conferees.

The language of the conference report, imposing a duty of 10 per cent on boots and shoes, is as follows:

"That boots and shoes, the upper leather of which is made wholly or chiefly of value from such hides (hides admitted free of duty) shall pay a duty of 10 per cent ad valorem."

Sensors from cattle states assert that there are no shoes of that description used in the United States and that the reduction is, therefore, valueless as all other shoes of leather are made dutiable at 15 per cent.

Realizing that some heroic measures would have to be taken in order to restore public confidence, some of the conferees before the meeting expressed a willingness to adopt a resolution permitting the conferees to revise their action in regard to the hide and leather question.

The older and more conservative members said this would not be necessary. They believe if an explanation were made, the public would accept it in good faith, especially if President Taft gave the explanation his endorsement.

THAW CASE ENLIVENED

Jerome Creates a Sensation by Reading on Exaggerated Ego

White Plains, N. Y., Aug. 2.—The third week of Harry K. Thaw's habeas corpus proceedings, to gain his release from the state hospital for criminal insane, opened today. Expectation that Thaw and his wife might take the stand again, in the Thaw house, long before the opening of the morning session. Thaw appeared refreshed by the two days' rest that have intervened.

District Attorney Jerome took up the reading of testimony of the second trial, where he left off Friday. From the several bound volumes he selected evidence of Catherine O'Neill, former secretary in the Thaw household at Pittsburgh. This related chiefly to Thaw's actions during childhood, particularly his fits of passion.

The story of Thaw's childhood and the influences affecting his birth as told by his mother then followed.

Mrs. William C. Thaw, who is behind her son, seemed about to lose control of herself. Her face flushed and she used her palm leaf fan to hide the twitching of her lips. Her testimony presented Thaw as a victim of extreme nervousness from birth.

Jerome read successively the testimony regarding the prisoner's mental condition given at the trial by Miss Belle Morehouse Lawrence, his kindergarten teacher in Pittsburgh; Abraham R. Beck, whose school he attended in 1881 and 1882; Miss Alice Fletcher, an old family friend; Christopher Baggie, steward of Thaw's whist club in New York, where, just before he killed White, the young man deposited three cigarettes in the safe; Amy Gossette, a trained nurse who attended him at Montreal; Dr. Charles A. Bailey, a physician of Albany, N. Y., who attended Thaw when he was sick on a train between Albany and New York, in 1906; Anthony Comstock and Dr. Horatio C. Wood, who told of the insanity of member of Thaw's family.

From the testimony of Evelyn Thaw, the district attorney read first those portions which refer to her husband's actions when she told him of her treatment by White, especially his wild sobbing. He read also testimony of Thaw's alleged attempt to kill himself with laudanum in a Paris hotel, and of the killing of White.

Other trial witnesses' testimony were given, among which was the Thaw butler in Washington; Charles F. Koepeler, one of the prisoner's teachers at Wooster university; Martin Green; C. Thomas Hanley, a New York newspaper man who saw the shooting; Matilda C. Stein, the telephone operator in the Grand Hotel, Paris; Caroline Lowrey, witness of the shooting; William A. Johnson, a New York newspaper man, who saw Thaw just before he killed White, and Lionel Strauss, witness of the shooting. All said Thaw's actions when the victim of the prisoner's actions after the shooting was dismissed by Jerome with a few words.

Some of Thaw's examinations before the sanity commission in March, 1907, followed. He told these commissioners that his expression, "an act of providence," referring to the death of White, had no special significance, being used only for convenience.

"Our purpose," Mr. Jerome told the court, "is to show that concealment of delusions is by no means an uncommon thing among paranoiacs and that this 'act of providence' idea was used by the prisoner at the very commencement of the thing."

The sanity commission, Jerome's reading of the report showed, tested

Conference Committee Reassembles in Order to Make an Explanation to the Western Senators

Washington, Aug. 2.—With the tariff conference report facing defeat in the senate, on account of an alleged "joker" in the hide and leather compromise, it was decided at 1 p. m. today to reassemble the conference committee for the purpose of preparing an official explanation. The conference committee will meet at 3 p. m.

It is understood that the reassembling of the conferees was a result of the conference between the President and Senator Aldrich, although it was said at the White House that the President had no part in their reconvening. The action of western Republican senators, aided by the Democratic members, in compelling the reading of the conference report in full, enabled the supporters of the conference report to take a new poll of the senate. Much to their surprise they found their previous canvasses were valueless. There seemed to be a revolt among the westerners on account of the phraseology that had been adopted by the conferees in adjusting the differences in the hide and leather paragraph.

Since Saturday there had been murmuring of discontent but it was not until today that charges that the leather committee promises harbored a "joker" had been heard but such intimations are not unusual in connection with the settlement of controversies. Some of the dissatisfied senators said the duty on boots and shoes had not been reduced to 10 per cent as asserted by the conferees.

The language of the conference report, imposing a duty of 10 per cent on boots and shoes, is as follows:

"That boots and shoes, the upper leather of which is made wholly or chiefly of value from such hides (hides admitted free of duty) shall pay a duty of 10 per cent ad valorem."

Sensors from cattle states assert that there are no shoes of that description used in the United States and that the reduction is, therefore, valueless as all other shoes of leather are made dutiable at 15 per cent.

Realizing that some heroic measures would have to be taken in order to restore public confidence, some of the conferees before the meeting expressed a willingness to adopt a resolution permitting the conferees to revise their action in regard to the hide and leather question.

The older and more conservative members said this would not be necessary. They believe if an explanation were made, the public would accept it in good faith, especially if President Taft gave the explanation his endorsement.

AUTOISTS HAVE NARROW ESCAPE

Chicago, Aug. 2.—Municipal Judge John C. Scovell and four other persons had a narrow escape from death yesterday when their automobile was sent speeding down the thirty-foot bank of the Desplaines river, south of Wheeling.

By his daring and skill, Eelden Jones, owner of the car, who was at the wheel, saved the big touring car from turning turtle and perhaps killing all of the occupants.

Mr. Jones steered the car down the forty degree grade of the bank when he found that he could not drive safely past the edge and brought the car to a stop against a big tree. None of the party was seriously injured.

HAPPY END OF ROMANCE BEGAN IN POLICE STATION

New York Aug. 2.—Following a romance which began in a police court, Sidmond McHie, a western real estate man and newspaper owner, and his bride, who was a Miss Mulhall of St. Louis, and later the wife of R. A. Delmont, a Chicago broker, are speeding to Seattle, in a motor car. When Mrs. Isabelle Delmont obtained a divorce from her husband three years ago, she became an actress in the "Country Mouse" company, but a year ago, she came into a substantial inheritance, retired from the stage and had quarters in a prominent apartment hotel here. She discharged her chauffeur a few weeks ago and Mr. McHie, a stranger to her, employed him. She caused the chauffeur's arrest on the charge of annoying her, and it was while prosecuting him that she met Mr. McHie.

CHICAGO HAS THREE MUNICIPAL COWS

Chicago, Aug. 2.—The three municipal cows, donated to save the lives of infants in the congested districts of this city, were delivered today. One cow will be placed in the steel mill district of South Chicago, another in the district back of the stock yards, and the third on the northwest side.

HORSEMAN DROPS DEAD.

Oakland, Cal., Aug. 2.—Morehouse, a prominent horseman, dropped dead at Warm Springs last night following a hemorrhage. He was 58 years old and had raced horses on various tracks.

LEAGUES POSTPONE BASEBALL GAMES

New York, August 2.—For the first time in the history of baseball, all games in the two major leagues are today postponed because of the funeral this afternoon, at Louisville, Ky., of President Harry C. Pulliam of the National League. A number of individual games in other leagues have also been postponed, and all scheduled games in the New York State league have been abandoned for the day. The action of the American league was because of the close personal friendship existing between Mr. Pulliam and Ban Johnson, present president of the American league, who will be one of the honorary pallbearers, and because of the high esteem in which all of the American league owners held Mr. Pulliam.

In this city, little doubt is expressed that Pulliam's successor, who is to be named at a meeting of the board of directors of the National league in Louisville tonight, will be John Heydler, the present secretary and treasurer.

LINCOLN PENNIES TO BE ISSUED TODAY

Philadelphia, August 2.—The Philadelphia will issue today the new Lincoln pennies, which the treasury department has caused to be designed by and struck off in honor of the one hundred anniversary of the late president's birth.

The head of Lincoln, which appears on the coin, was designed from a photograph in the possession of Charles
